Item 6.4

## Staff Report

---

**Meeting Date:** September 7, 2022

**Agenda No.** Item 6.4

**Agenda Item Title:** Municipal Service Review for City of Sonoma; Consideration of Adoption of Final Draft

**Proposal:** None

**Environmental Determination:** Not a project under CEQA

**Staff Contacts:** Mark Bramfitt

## **ANALYSIS**

---

### **Overview**

At the July 6, 2022 meeting, the Commission considered adoption of a Municipal Service Review (MSR) for the City of Sonoma. The Commission directed staff to make changes to three of the determinations in the report, as well as to amend errors in the report proper.

Staff has amended the report, and is asking the Commission to consider those amendments, and to consider approving a resolution adopting the determinations, also as amended.

### **Background**

#### *MSR Determination Amendments*

The Commission directed changes to three determinations in the MSR. These three determinations are part of the “11. Recommendations” section of the MSR, and were included as items 3.10.1, 3.10.2, and 3.10.4 of the draft resolution presented to the Commission for consideration in July.

The determinations amendments have been summarized in Attachment 1, and the final version of the MSR (Attachment 3) and new draft resolution (Attachment 4) also reflect the amendments.

#### *MSR General Amendments*

The Commission also directed staff to address amendments to the body of the MSR. These amendments have been summarized in Attachment 2, and are reflected in the final version of the MSR (Attachment 3).

## **RECOMMENDATION**

---

Staff recommends that the Commission review the amendments to the MSR to ensure that they reflect the Commission’s intent.

Staff further recommends that the Commission take public comment on the MSR, and then consider adopting a resolution approving the determinations of the report. A draft Resolution (Attachment 4) has been provided.
